Questions, discussions and perceptions of the day – Ole Alvseike

My ambition

- That you will receive a set of nice presentations
 - Inspiring
 - Provoking
 - Useful
- That you will be actively participating
 - Science is not about having right, know everything
 - Science is about curiosity, creativity, arguing, testing and criticism
 - That you will do your best to collaborate, ask and discuss
 - Use the occasion to build an International network
- That the technical platforms will work
 - Turn of your cameras when not speaking
 - Write your questions in the commentary field

Contacts
