

WG2 Farm-level: controls + risk categorization

leader:

Diana Meemken

Freie Universität Berlin | DE

vice-leader:

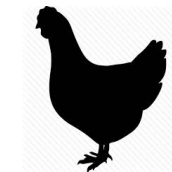

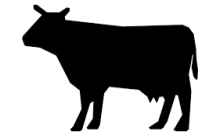

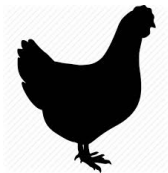

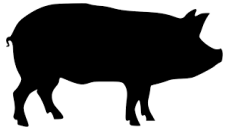

Truls Nesbakken

Norwegian University of Life Sciences | NO

Food Chain Information (FCI):
Assessment & Improvements

Harmonised Epidemiological Indicators (HEIs):
Risk categorisation of farms

Pre-harvest Food Safety Interventions:
Assessment of effectiveness

Food Chain Information (FCI):
Assessment & Improvements

Harmonised Epidemiological Indicators (HEIs):
Risk categorisation of farms

 **joint online survey**
in 12/2020 
  

report on FCI
as deliverable in 02/2021 

report on HEIs
as deliverable in 12/2022

publications on FCI
in 2022

publications on HEIs
in 2023

WG2 Status pre-harvest food safety interventions

systematic literature reviews

report on pre-harvest meat safety interventions as deliverable in 
02/2020

peer-reviewed publications

Pessoa et al., 2021

Rodrigues da Costa et al., 2021

submission in 2022

Further activities

WG2 meeting in Switzerland
dates not fixed

joint online training school of WG2 & WG3
intervention

pre-harvest interventions

20.-22.06.2022

post-harvest interventions

WG2 meeting
location & dates not fixed

joint online workshop of WG2 & WG3
risk categorisation

farm level

food chain information
harmonised epidemiological indicators
dates not fixed

abattoir level

meaningful feedback & effective incentives

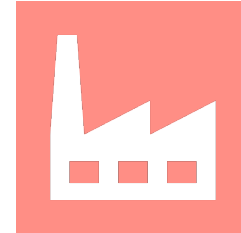

effective pre-harvest interventions

sustainable animal production

RIBMINS main goal
„MEAT SAFETY“

effective post-harvest interventions

effective meat inspection

meaningful Food Chain Information

meaningful HEIs
